

HEALTHY CONTROL PARTICIPANTS NEEDED TO HELP US STUDY CHRONIC DIZZINESS

STAR DUST is a UK-wide study to investigate the causes of chronic dizziness symptoms

Participants will visit our Manchester laboratories to take part in simple experiments (some in VR) assessing their perception of movement. You will also need to complete some baseline tests (IQ, visual acuity) and questionnaires.

Participants will be compensated for their time & reasonable travel expenses

If you are interested in taking part in our study and would like to know more/discuss eligibility then please contact:

Dr. Joshua Haynes (joshua.haynes@manchester.ac.uk)

Participants must:

- Be aged 18+
- Have normal or corrected to normal eye sight
- Be willing and able to travel to Manchester for two half day testing sessions
- Be able to easily understand verbal/written explanations in English
- Have no other diagnosed neurological, cardiac, visual or psychological conditions
