

ARE YOU INTERESTED IN PARTICIPATING IN RESEARCH?

ARE YOU:

**Aged between 40 and 80 years old ?
Had a fall or are concerned about falling ?**

OR

Experienced dizziness or imbalance ?

AND

YOU RECEIVED ONE OF THESE DIAGNOSES:

- Stroke
- Mild cognitive impairment
- Vestibular dysfunction
- Long Covid-19

Your participation in our study “TELEREHAB - DSS Clinical Validation Study” can help us determine the effectiveness of a remote home-based augmented reality programme for balance rehabilitation compared with standard balance training. We thank you for considering participating in the study.

If you would like to receive more information, please **contact the study coordinator:**
